WRIG MEDIA RELEASE

Successful Field season made possible in part through PEI Wildlife Conservation Funding.

The Wheatley River Improvement Group would like to acknowledge the financial contribution provided by the Prince Edward Island Wildlife Conservation Fund. The funds awarded were put to use during our successful 2013 Field season. This financial assistance made available by the WCF was a big help to WRIG operations, enabling our 2013 Field Crew to carry out important stream enhancement work, protecting and restoring wildlife habitat and water quality throughout the Wheatley River watersheds.

The importance of funding to our non-profit community based group cannot be overstressed, and WRIG would like to thank the WCF Committee for continuing to support WRIG and other PEI Watershed Groups. Our appreciation is gratefully extended to the residents of PEI who continue purchase fishing and hunting licenses which contribute to this important funding initiative.

For more news on WRIG projects and how to get involved with our Watershed Group, please go to www.wheatleyriver.ca for more information.
